MAGNA MA03

MOBILECRANE MO

MAGNA TYRES develops and manufactures high quality tyres for construction and mining purposes, especially designed for the most severe applications.

This tyre is especially designed for mobile cranes for highway and off-road applications.

The aggressive, self-cleaning tread design provides excellent traction in severe off-road conditions.

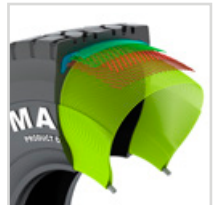

Long-lasting, non-directional tread design contributes to efficient fuel consumption and guarantees operating comfort.

The non-directional tread design provides excellent traction while lowering rolling resistance.

All steel radial construction. Improved protector plies optimize load performance and operator comfort.

New improved technology of the high-tech casing reduces heat build up inside the tyre.
