MAGNA MB01

PORTHANDLING PORTHANDLING PORTHANDLING

MAGNA TYRES develops and manufactures high quality tyres for construction and mining purposes, especially designed for the most severe applications.

Magna MB01 is designed for use on container handlers and reach stackers.

Side wall protection and flotation are enhanced by the wide shoulder design.

The tread compound provides excellent performance against cutting and abrasion.

Improved traction and performance through non-directional tread design.

All cross ply construction. Improved protector plies optimize load performance and operator comfort.

New improved technology of the high-tech casing reduces heat build up inside the tyre.
